Describe any security initiatives implemented in your county within the last six months.	
Barron	Beginning 1/1/06 we have a court security officer for 20 hrs per week.
Clark	A videoconferencing system is now in use, reducing transports of inmates and allowing their appearance from remote locations.
Dane	Improved control of transports. Weapon screening for all employees; by-pass eliminated. Secure circulation of in-custody inmates. 3-way circulation pattern throughout building. Cameras monitored by Sheriff at entrances and strategic points.
Douglas	Received funding from county board to install a new computer based duress alarm system for courtrooms and offices.
Fond du Lac	Fond du Lac County Sheriff's Dept. conducted training within the courthouse including swat members.
Grant	Additional panic buttons were installed in several offices in the courthouse.
Green Lake	Set new courthouse hours when doors are to be opened in morning and locked in evening to avoid building being open before or after business hours.
Iowa	The courthouse facility (building) has been fitted with a keyless entry system. It is in operation and seems to be functioning well.
Jefferson	A security station check point has been added to the entrance of the courthouse. An x-ray scanning device has been placed there along with a computer and monitor to view security video cameras which were also added throughout the courthouse. All entrances to the courthouse, except for two have been closed. Silent duress alarms were added to office areas within the courthouse that did not have them before. Three additional deputies have been hired to assist with duties within the courthouse. Short term parking limitations have been added near entrances to the courthouse.
Juneau	A door was installed in the wall between courtroom A and courtroom B. This doorway ensures incarcerated or detained individuals neither enter the "public" area or the "secure" area.
Kenosha	In January, 2006, a public single security entrance with brief-case scanning machines, walk-through metal screeners, and security guards was installed. All other entrances were restricted. An employee entrance with a proximity card reader was created.
Marathon	Panic alarms installed for court reporter and courtroom clerk.
Ozaukee	Everyone entering the courthouse now goes through a metal detector and any bags, purses, etc. are searched. The courtrooms and hallways have had cameras installed, which are monitored at the front door security station. There is a minimum of one armed deputy at that station at all times, with an additional deputy monitoring courtrooms.
Racine	We have finalized new security procedures for the juvenile detention center and had them approved by the security committee and all circuit court judges.
Taylor	Purchased new foam pepper spray and computer for security officer. Pepper spray is more efficient and less caustic for bystanders. Computer allows security officer to have direct access to CCAP for security checks of upcoming cases.
Walworth	The Sheriff plans to add security cameras in front. A deputy was added to entrance way. The deputy replaced an outsource security guard.
Washington	Just opened a new Court facility with total security.
Waukesha	Perimeter screening, security data base
Waupaca	WE have reorganized our Security Committee for our County through the County Board. Also, commencing in April 2006 we have security set up at the entrance of the courthouse randomly once a weeks.

Describe incidents involving court staff occurred off the courthouse premises within the past six months.	
Douglas	Had some vandalism of an employee's vehicle parked in parking lot.
Kewaunee	Harassment against attorney File at sheriff's Department
Marquette	The Clerk of Court received a telephone threat of violence ("I'm Coming up there and I'm gonna get you"). The Court went through the courthouse lockdown procedure, limited access to only those that passed through Sheriff's Dept. screening and directed law enforcement to contact the individual.
Milwaukee	None of which we have been advised.
Sawyer	Verbal threat to harm Judge and Probation Agent (3-24-06)
Walworth	A judge received a letter from a irate defendant.
Washburn	Some little jerk threw nails in my driveway this past winter. I reported the incident to the City police and they have kept tabs on my house during the late evening on an occassional basis since. Some other jerk is stealing gas from the tractor at the farm. I doubt that the two are related and I very much doubt that the latter is happening because I am a judge.
